SOCIALISM IN CHURCH HISTORY (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Socialism in Church History Many members of the Church of England are socialists, and would establish a commonwealth whose people should own the land and the industrial capital and administer them co-operatively for the good of all. Such public ownership they regard as urgent, and as a necessary deduction from the teachings of the Church. They are not communists but socialists. Far from seeking the abolition of private property or the curtailment of personal freedom, they desire such an industrial rearrangement of society as shall not only increase the national output but shall secure to the majority the wealth they produce and the liberty they have hitherto been denied. The Christian Faith cannot be summed up in the word socialism, nor should it be finally identified with any political or economic system. For all this, Churchmen are convinced that the principles which underlie socialism are, so far as they go, the principles of the Christian religion as applied to political, commercial, and industrial problems.
